Sir:

This is in response to the "Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures" dated June 6, 2006, received in connection with the above-identified application, noting the absence of a Sequence Listing.

In response to the above-noted Notification, Applicants have reviewed the specification and failed to find any amino acid or nucleotide sequences for which a Sequence Listing is required.

In order to comply with U.S. P.T.O. regulations, Applicants respectfully request that the Examiner responsible for this application particularly point out where in the present application there are present amino acid or nucleotide sequences, if any, that require submission of a Sequence Listing.
